BIG X (III)

Because Dr. MacKeller of the Southeast Asian chapter of the Cross Party injects the liquid Big X into animals in experiments, the liquid is soon used up. Akira returns to Japan with Nina and completes Big X from the formula left by his father. Dr. MacKeller and Hans, who had become a member of the Cross Party arrive in Japan in search of Big X. But Hans is killed. Prof. Hanamaru feels sorry for Hans and changes the latter into a cyborg. The Cross Party was planning to induce war between the U.S. and the Soviet Union in which hydrogen bombs were sure to be used. It also planned to escape in a rocket into space and return to earth after atomic radiation had settled down and then conquer the whole world. Silver, who was planning to become the president of the U.S. was also a member of the Cross Party. Akira learns of Silver's plan and goes to Cape Barbella in the U.S. where hydrogen missiles are stored, and destroys the base. The party uses V-3s to attack Akira but he repulses all of them. He beguiles the leader of the party to meet him and Akira finds out that the leader was none other than Hitler's shadowman. Akira is recognized for the role he played in averting a world war and he is appointed a member of the United Nations' military inspection team. Akira and Nina go to the republic of Galea which was suffering from a cold wave. Their plan was to use Big X to solve the food shortage there. The roots of an Irish potato turns into a monstrous being after absorbing Big X. The Republic of Galea had built a secret fortress underground and this was the cause of the cold wave. The monstrous potato goes into the underground fortress and occupies the electronic brain. He starts to call himself King Galea and barks orders in the voice of a human being. Akira calls the cyborg Hans from Japan to destroy King Galea but Hans becomes an ally of King Galea. (To be continued in Vol. IV).
